

for balcony coverings, horizontal or vertical

External corner horizontal

External corner vertical

Internal corner horizontal

Internal corner vertical

Applications:

DURABAL BKAE balcony edge profile with drainage sill and holed support base for the laying of tiles using the thin-bed process. This profile can be installed horizontally or vertically. Extensions are held together with connectors and inside and outside corners are dealt with by means of specially formed corner pieces.

Material:

Aluminium anodised

Height:

9 mm / 13 mm

Length:

300 cm
