Application:

CLIPPER 2000 is a profile system with a screwless top profile featuring various surfaces made of anodised aluminium or with plastic-framed decorative wood surfaces. It can be used for edges, expansion joints or junctions in laminate and parquet floors. Plastic clips ensure firm attachment. Additional clips are particularly designed for thicker floor surfaces. Differing floor heights can be compensated for. The base profile can be screwed to the floor or glued in place.

Material:

- Aluminium anodised silver, gold, champagne, bronze.
- Wood finish oak, beech, maple light, maple, kempas, cherry, merbeau, beech red.

Height:

6–20 mm

Width:

27–40 mm

Length:

90 / 270 cm
