

DUOFLOOR

1/1

Screw-on finishing-, wall connection- and floor transition profile entirely in aluminium

- Information Sheet -

DURAL

APPLICATION:

DUOFLOOR is the modern system profile made entirely of aluminium for flooring surface heights ranging from 3,5-14 mm. The extra-flat design in combination with the extremely stable construction of the screw-on fastening system make this an exceptional profile system.

- DUOFLOOR *Border* for perfect wall connections
- DUOFLOOR *Expansion* for clean transitions of floors of similar height
- DUOFLOOR *Finish* for elegant finishes
- DUOFLOOR *LVT Finish* for extra flat, elegant finishes

MAINTENANCE:

DUOFLOOR profiles require no specific maintenance. Any dirt can be removed using normal cleaning materials. However, the cleaning materials must be free of hydrochloric or hydrofluoric acid and should not scratch the surface.

PRODUCT DATA:

MATERIAL:	Aluminium anodised
SURFACES:	silver, gold, bronze, champagne, titanium
HEIGHT:	6–14 mm / 3,5 - 5 mm (LVT Finish)
WIDTH:	<i>Border:</i> 22 mm <i>Expansion:</i> 32 mm <i>Finish:</i> 44 mm (visible width) <i>LVT Finish:</i> 33 mm (visible width)
LENGTH:	90, *100, *270 cm / *LVT Finish
