DURAWAY XTRA

Quantity: _____

Product: (DWXT) Textile (DWXC) Rubber
 (DWXTC) Rubber/Textile

Colour textile: 97 grey 33 black

Colour rubber: black

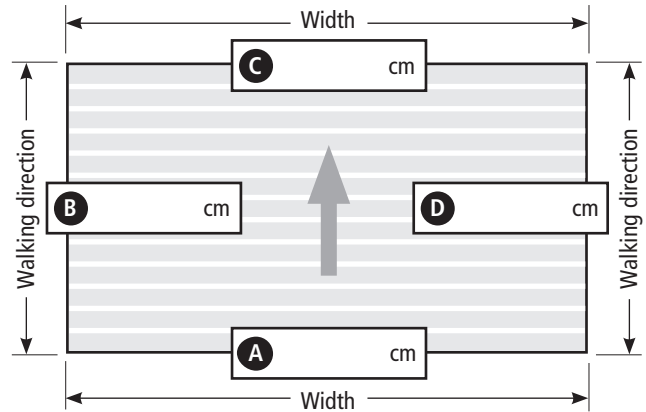

Frame profile height: 14 mm

Frame required: yes no

Material (frame): Aluminium (15 x 30 x 3 mm)

Measuring correctly:

In order to determine the exact dimensions, please measure all four sides, so that any asymmetry can be taken into account.

Given dimensions are for:

Frame size external:

Frame size internal:
 (for a doormat in an existing frame)

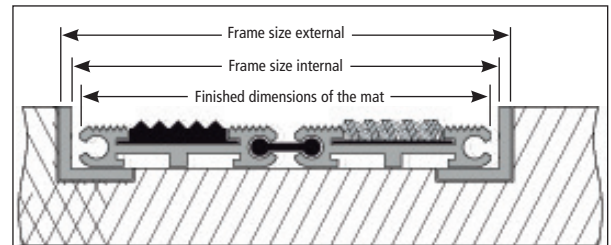

Finished dimensions of the mat:

Please note!
 The dimensions of the doormat must be smaller than those of the frame so that the mat can be lifted out easily for cleaning purposes.
In this case, deduct 2.5 mm from each side of the mat, so that the mat is 5 mm shorter in both width and length (walking direction).

Special shapes / asymmetrical formats (additional charge)

Please provide a drawing showing the exact dimensions !

DURAWAY XTRA doormats are made in one piece where possible. Only mats that are wider than 300 cm or weigh more than 70 kg are split into two sections, to make them easier to handle and to take up for cleaning. We would like to remind you again of the importance of specifying the walking direction correctly. Only if the doormats are laid at right angles to the walking direction will it be possible to achieve optimum cleaning and eliminate the risk of slipping. Unfortunately it is not uncommon (even in large projects) to find doormats laid in the wrong direction. **If you have placed an order, we will send you a detailed sketch for you to approve.**
